71	The ability to easily link the school email to my gmail account. Gmail sends notifications to my phone when I receive an email so receiving the message would not be dependent on my taking the time to log on to the needlessly complicated and frustrating ETC portal. 76	If all the student announcements or messages were all in just one place instead of in five different places. I think it would be effective to set up ONLY one huge calendar that has all student announcements and events on it with times and location information when clicked upon. When an event is added to the month then that certain event can be colored or bolded on that day so that students can know what event was added to the specific date. If it is just an announcement then announcements can be beside the huge calendar.	11/5/2014 9:27 PM

89	Sending thing through the mail is great, because not everyone checks their email everyday.	11/4/2014 11:30 PM
90	I would suggest having mass messages sent to phones because we are college kids and most of us always have a phone in hand, whereas most of us do not even check our emails frequently.	11/4/2014 8:26 PM
91	Quicker access to the etc portal and email and blackboard. Blackboard is nice since it keeps a person logged in longer so u dont have to repeatedly put in username and password, unlike etc portal and tctc email. For the electronic monitors the teachers are not using it just because of lack of knowledge on how to use it or how to take advantage of the technology of the the digital whitboards.	11/4/2014 8:15 PM

100	More relevant use of social media. Meaning, frequent updates, but separate accounts for 1. Athletics 2. Departments 3. The college overall, etc. The current method of using etc to email everyone every announcement is tantamount to spamming and many important messages get ignored. Also, clearly advertising to everyone (not just students going through orientation) that you have a social media presence so that everyone can follow the college accounts relevant to their experience.	11/4/2014 10:23 AM

105	Communicate via text with students with everything. This includes exam schedules, parking updates, class cancellations ect. I also enjoy seeing the monitors in the hallway to convey information.	11/3/2014 9:23 PM
106	Easier to navigate the portal.	11/3/2014 9:15 PM
107	Emails are an effective way to communicate to a certain extent. A text messaging system would be the most beneficial to students.	11/3/2014 8:14 PM
108	Too many emails. TCTC Announcements sends emails multiple times a day at times, so I no longer read them.	11/3/2014 8:12 PM
109	Make communication with the students all one instead of there being email, blackboard, ect.	11/3/2014 7:41 PM
110	Contact students by cell phone and also send a letter in the mail regarding the information.	11/3/2014 7:15 PM
111	Try to communicate on a more personal and modern level, i.e. text.	11/3/2014 6:17 PM
112	I feel that the college does not give students enough information on how the campus functions. I felt very lost and illprepared on my first day on campus.	11/3/2014 6:14 PM
113	I do like the idea of texting students with updates concerning TCTC and Clemson.	11/3/2014 6:11 PM
114	texting for major announcements	11/3/2014 5:46 PM
115	I have no idea.	11/3/2014 5:16 PM
116	The college could send out text messages along with the emails that are sent out. I know I am on my phone more than my computer and I am sure many other students are as well.	11/3/2014 4:57 PM
117	Stop worrying about how many people you push through the program and focus more one on one with your students.	11/3/2014 4:51 PM
118	Posters are alright, but most of the time, students are set on getting to their classes and don't take the time to look for posters. I check my email frequently, so TCTC email is the most reliable source for communication. I do not use Facebook/social media for school, and I doubt others are either. They use social media for picture-viewing, scrolling through their newsfeed when they have a minute or two on their hands, and that's about it. Text messages for alerts are GREAT, whether than includes weather alerts, crime watch, or parking mishaps.	11/3/2014 4:08 PM

2014-15 Fall Student Survey

120	Improving eTc web portal- hard to understand and navigate. Decrease the number of emails received from the college- I get at least 5 a day that do not apply to me which causes me to sometimes miss important emails that I DO apply to me.	11/3/2014 2:29 PM
121	I am on the fence about this, but facebook more efficiently could be a great way to communicate with students.	11/3/2014 12:33 PM
122	Have an additional account where unimportant things are sent. They tend to be annoying and get in the way.	11/3/2014 12:01 PM
123	An E mail for when blackboard is going to be off. I always get the email after the fact or not at all.	11/3/2014 11:55 AM
124	Very good communication!	11/3/2014 11:31 AM
125	Sending text messages would be the best way to contact me	11/3/2014 11:29 AM

468	Relationship w/faculty Ron Talley has been exceptional. I have never known a teacher so passionate about teaching and his students education.	11/6/2014 2:08 AM
469	Relationship w/faculty By far my favorite experiences at Tri-County have come from my professors I've had over the years. Some if not most of the instructors I've been had I've found to be incredibly knowledgeable and passionate about their subject, those instructors definitely created my favorite moments at school. Those moments would include, course material finally clicking into place, genuinely feeling like I am learning and retaining course materials, gaining new interests in subjects that I thought I would dread, and the feeling of being involved in the class. On the other hand there have been a few professors I have encountered that seem to have little interest in their subject or in teaching, they were definitely responsible for my least favorite experiences, they managed to make learning seem like an arduous experience, like the information their relaying is so mundane it seems like it couldn't possibly be useful, and so as soon as the test is over the information is forgotten.	11/6/2014 1:36 AM

470	Relationship w/faculty My best experience were my teachers and the tutoring center. These were people who were genuinely concerned about my learning. 478	Creating New Friendships Learning Experience Relationship w/faculty I'm a pretty introverted person; I don't generally make friends and I absolutely hate group projects. Naturally I was dreading Public Speaking, but it ironically became my favorite class this semester despite my anxieties about speaking. The teacher is funny and engaging and the people in my class are friendly and interesting. I think it was a very good decision to take the class at Tri-County rather than a big university.	11/5/2014 7:29 PM

491	Learning Experience Relationship w/faculty My English 102 course with Pamela Patterson has been my favorite course thus far because of the diversity in the classroom studies. From film analysis, novel analysis, poems, to music, all studies have been interesting as Patterson interacts with the students as a whole. I have never been bored in her class and she has made me love literature again. In addition, outside of the classroom she works in the Writing Center. Every time we had a paper due I would go there for her advice and she has largely helped me excel in my writing skills. 564	Relationship w/faculty Relationship w/staff I was trying to enroll for the spring semester of 2013, and my advisor had informed me that I would not be able to enroll because I didn't have financial aid. She didn't tell me that I had to activate it, instead she tried to set me up on a payment plan. Then I went up to the front and had to try to enroll for summer semester, but then I went to financial aid and was able to enroll for that spring semester. There was this one lady in the career services center I think that helped me learn what classes I would have to take that would transfer over to Clemson and was very patient with me, and she even helped me make my schedule. I wish I could remember her name. She really helped me and informed me on a lot I didn't know and unlike my advisor, she didn't try to rush me into a payment plan. 650	Learning Experience Relationship w/faculty Relationship w/staff I particularly enjoyed my PSY 201 course with Kate Williams. She introduced each of us to a life of thinking 'outside of the box'. The classroom was warm and open to opinion - rather than cold and closed to opinion. When I attended TCTC in the 2010/2011 and 2011/2012 years, I enjoyed talking with Cora, one of the custodians at the Anderson Campus. I was disappointed, when I returned this fall, to not see her at the Anderson Campus. 679	Relationship w/faculty The best experience I had at Tri-County was the meeting with my adviser. I was on the brink of taking a gap year from the Clemson Bridge program and switching my major from a passion I have had for 12 years. After the meeting, I was convinced I was fully capable of achieving this goal, no matter how far out of reach it seemed at the moment. My meeting encouraged me to stay in school and persevere.	11/3/2014 6:21 PM

710	Learning Experience Other The best experience I've had with Tri-County is getting quality courses for a decent price. I love that I'm able to say I am becoming an RN with a BSN without paying ridiculous prices. Life scholarships are WONDERFUL. It is annoying getting books that are not needed for class, and having multiple portals for homework/assignments, because the cost of those books/portals can add up to hundreds, but overall, I'm getting a solid education without breaking the bank, and education SHOULDN'T break the bank!	11/3/2014 4:12 PM

1	Advisor Faculty & Staff Tri-County is a great school that really focuses on helping me reach my goals, even when i reach certain struggles, the advisers are patient, informative, and very helpful at getting me back on track and providing counselors that have helped me through financial and emotional struggles. I really enjoy being here as a student and hope to graduate with success. Thank you for all you do!	12/4/2014 2:01 PM
2	Faculty & Staff The Criminal Justice professors at TCTC are very knowledgable and second to none in their ability and knowledge to bring the quality of education we need to pursue a career in our chosen field. DL.	12/2/2014 9:32 PM
3	Facilities Ramps at the bus/van student drop /pick up near the steps would help getting to the library , Fulp and other areas with rolling book bags. I use two book bags and one is rolling on the days I have to go class to class because the bulk amount and the weight of the books is too much and I use the library almost daily. And I have to go around the front of Miller Hall because the books cause the bag to be over weight. Just a small ramp for the book bags to cut time and get out of the rain and cold faster.	11/28/2014 12:33 AM

8	General Comments Tri-County is a very good school.	11/24/2014 9:49 AM
9	Equipment & Communication Facilities Tri-County is a great college, I only wish that the computer lab on the third floor of Fulp Hall would have more consistent availability. It can be frustrating when you plan on going there to complete an assignment and then find it is suddenly being closed and you have to rush across campus to beat everyone else to the other free computers. This happens extremely often.	11/24/2014 12:18 AM
10	Faculty & Staff Mr. Johnson English 101 was the most interesting teacher I have ever had and I enjoyed his class completely! What an asset to this college!	11/23/2014 1:40 PM
11	Student Services Student records is terrible, the sent me on a run around. They had no clue what they were doing or what I needed to do. A simple change of major took me weeks due to the inadequacy of what they did.	11/22/2014 4:18 PM
12	Faculty & Staff I think I had a good overall experience so far. My bio 101 teacher at Easley really wasn't all that helpful and I feel like she didn't teach as good as she could have but everything else was great. The teachers and all.	11/21/2014 10:48 PM
13	Equipment & Communication Students should be told when Blackboard will be down for maintenance. There is a schedule posted on the login page but it is not very noticeable.	11/21/2014 9:24 PM
14	Equipment & Communication Faculty & Staff the majority of the staff (financial aid office, bstudent records) are very unhelpful. Was not contacted by any advisors or student success coaches until months into the semester and was not informed how i could contact them. my student success coach quit so i'm not even sure if i have one right now.	11/21/2014 7:55 PM
15	Facilities Faculty & Staff Quit finding ways to take more money; you already make thousands from tuition and books; cafeteria staff are rude and it shouldn't close at 4 (more like 5). Bigger parking lots	11/21/2014 12:19 AM
16	Facilities Faculty & Staff Student Services I feel that that the tutoring center needs more tutor's. I feel that they are understaffed during finals especially. I've noticed that several of them are seeking a higher education and teaching which leaves them in a bind for time and limited resources.	11/19/2014 11:26 PM
17	No Comment None that I care to discuss	11/19/2014 6:24 PM
18	Faculty & Staff Katherine Sparks is possibly the worst and laziest employee/instructor at Tri-County.	11/19/2014 4:13 PM

21	Faculty & Staff Student Services I enjoy every minute at Tri-County Technical College. Some of my professor's are great! The tutoring center has been a help to me along the way. I plan to finish here successfully and transfer to a University College.	11/19/2014 10:22 AM
22	Facilities Student Services There should be more tutoring sessions available at the Anderson campus. It is harder to work in tutoring centers with my class schedule and work schedule when I have to travel to the Pendleton campus.	11/19/2014 10:04 AM
23	No Comment None	11/19/2014 9:01 AM
24	Equipment & Communication Faculty & Staff I enjoyed all my classes. Ms. Read was such a great teacher and very encouraging. Mr. Meyer was a great teacher and he was very patient with me. I have been out of school for 40 years, so it was like starting over. I struggled with Windows 7. Some of the instructions were unclear and the syllabus seemed to stray a little. I didn't have a problem with the teacher, she was great, just the assignments. I had my daughter to help me with understanding what was needed to be done and she didn't understand some of them. She took Windows 7 when she was at TCTC.	11/19/2014 7:46 AM
25	General Comments I think over all that Tri county is a wonderful school	11/19/2014 6:54 AM
26	Faculty & Staff the ladies at admissions and the lady where you purchase parking decals are very rude and not friendly. they should be more pleasant to all people, especially when money is being paid to receive services.	11/18/2014 11:27 PM
27	Facilities As always, the stairs and parking are just awful but I never see this school trying to better the situation. I just try to get to class and get home as soon as possible.	11/18/2014 7:57 PM
28	Faculty & Staff My worst experience would be Mrs. McClure. She is late on everything she does, she says shes going to do something and she doesn't, causing people to fail certain tests and subjects. She doesn't answer questions in class and she frequently gets off subject causing lessons to not be fully taught.	11/18/2014 6:34 PM
29	Class Scheduling I wish Tri-County had more night classes. I am a person that needs to be in class to ask question if I am having trouble and I do not like online classes.	11/18/2014 4:49 PM
30	General Comments I like Tricounty	11/18/2014 4:32 PM
31	Facilities i used to work right now trade is paying for me to go to Tri-county i only use the library to study at tri-county i use the library at Salem for copies	11/18/2014 3:41 PM
32	General Comments I just wish it wasn't so far from Seneca.	11/18/2014 3:03 PM
33	General Comments The college needs a lot more assistance for new students. I was blind to what was best for me until I took the actions to help myself and find instructors with real help. your freshman orientation is a joke! The Advisor I was given to begin with handicapped me for my first two semesters. Also, the school has turned in to such a MONEY-MAKING BEUROCRACY! The wrong teachers are hired into department head and administrative positions. When I started, the school provided its own publications, and now we have to pay for them. Even MIT has free publications. Lets face it, the education provided is not worth the price paid when all the expenses come to a sum.	11/18/2014 3:02 PM

46	Equipment & Communication Faculty & Staff In general, the registration process at Tri County has been very frustrating for the 2 years that I have gone here. The times for required classes make scheduling very difficult, and the teachers are almost never listed when registration begins. More options would be a great improvement. Also, I have had multiple issues with registration as far as access. Every time registration rolls around I have to make phone calls, emails, and appointments with this person or that person to get things signed, approved, changed, etc. for registration to succeed. For some reason it is never smooth and easy. There are always problems, and they are things outside of my control. In other words, I hold up my end, but you don't. I also wish you would take student-teacher surveys more seriously. I have had several teachers at Tri County that either needed serious improvement of their teaching skills, or they needed a new profession. When talking to other students I find out that they feel the same way. Teachers have stayed at Tri County for years, despite numerous student complaints. I was a certified English teacher for 6 years, so I feel I have a valid opinion in this area. One time I even put in a formal complaint form about a teacher, along with several other students. No one ever responded to the complaint, the teacher is still at Tri County, and students still have similar complaints. When I taught middle school English in Florida, I was observed by administrators several times a year. In my time at Tri County, I have yet to see any of my professors undergo an observation. This would be a great way to give feedback, and to create reflection of methods by your teaching staff.	11/17/2014 11:46 PM
47	General Comments I would recommend Criminal Justice Technology to anyone especially students with an unknown major. It is by far the most interesting in my opinion.	11/17/2014 11:15 PM
48	Equipment & Communication Some problems with taking an online test once.	11/17/2014 10:58 PM
49	General Comments I was really nervous that I would not pass for the semester, but I now have confidence that I will.	11/17/2014 10:51 PM
50	General Comments Well I took out study time to fill this out survey out because I actually could really use \$50 for gas money or food. So yeah, Tri County is really a great tech school! I enjoy it very much!	11/17/2014 10:31 PM
51	General Comments Students should be treated equally. The nursing program is really messed up.	11/17/2014 10:12 PM
52	Equipment & Communication Facilities Some of our equipment needs to be replaced, such as our laptops. Some of the problems with the equipment are due to the idiots I share class with and they can't seem to take care of much but the rest is due to lack of funding but I know the industrial electronics department is not as recognized as some of the other departments. I guess that comes with being a minority when it comes to how many people take the courses and that is nothing new to myself as I am the only girl that I know of on the Easley campus taking these classes. More funding would be great though.	11/17/2014 9:34 PM
53	General Comments I love this school and all the support that you guys bring me.	11/17/2014 9:20 PM

55	Class Scheduling I took 2 classes online and I did not do good in them at all. So for the coming up term, I signed up for no classes online!	11/17/2014 7:16 PM
56	Equipment & Communication The only thing I think Tri-County could improve is making professors put grades in blackboard. I never know my grade, which is not okay.	11/17/2014 6:55 PM
57	Faculty & Staff A lot more teachers could be a bit more caring and actually act as if they enjoy teaching. A great atmosphere will make students actually enjoy learning. After all, the students are the future in which they have been chosen to prepare us for.	11/17/2014 6:52 PM
58	Equipment & Communication There needs to be more lighting around campus at night. And more online classes would be great option for people that can't attend school campus.	11/17/2014 6:01 PM
59	General Comments TCTC is a great school in general. People at TCTC actually care about their students well-being and success by offering some many available resources to students.	11/17/2014 5:42 PM

66	Facilities Overall I am not that impressed with the facilities here. I think that the brick buildings are not only depressing, but lacking in quality. I do think that I have received a decent education, however I wish I could learn in a more welcoming place.	11/17/2014 2:59 PM
67	General Comments Overall the experiences I've had were not bad at all.	11/17/2014 2:55 PM
68	Equipment & Communication I very strongly dislike the Pearson websites. They require downloads and changes to my browser that I do not like, and they would not let me log back in after my session had expired. I have had trouble with them since the beginning of the semester. However, I dislike the BlackBoard website even more. Between the inconvenient system downtimes, the site refusing to let me log in for no discernible reason, and little to no technical support for the problems I faced, BlackBoard has been a constant hassle. It would not be an exaggeration to say that I hate BlackBoard.	11/17/2014 2:51 PM
69	Faculty & Staff Cafeteria staff is EXTREMELY unprofessional and unreliable.	11/17/2014 2:29 PM

80	Equipment & Communication There was a question in the survey about the average cost of books for a semester. I couldn't answer that question truthfully because the average cost of my books per semester is well over \$500. Last semester I paid \$1200 for books alone. This cost is ridiculous. I have never paid less than \$750 for my books in 1 semester.	11/17/2014 11:39 AM
81	General Comments I like TCTC just fine. They clearly try to help everyone to get the education and experience they want.	11/16/2014 7:10 PM
82	Facilities Steps going to lower parking lot are so tiny and steep! HATE that they did away with the carpool lot! I think the parking behind FULP should be age based, (says a 48 year old student going back) it's terrible having to climb those stairs EVERY DAY from the bottom lot. Bring back the carpool parking. So many young boys with these BIG trucks crowd the slots and make it hard for cars to pull into the space beside them. They should have to go to the bottom of the lot! It's very hard to get everything out of the car when these big trucks are almost too big for the space. Try getting my book bag out that weighs 20 pounds or more without bumping the car next to you...	11/16/2014 5:13 PM

84	Equipment & Communication Facilities Consider getting a computer lab just for nursing students. I feel bad when other students are not able to access it due to ATI testing. 88	Equipment & Communication Faculty & Staff I enjoy the nursing program, but many things are unorganized and lack quality teaching time. I have had several classes cancelled this 7 weeks along with the fact that sometimes our instructors are not as prepared as the students are. (Ex: Not having materials needed after having the whole previous week to have them printed and ready, not being able to locate or play things they wanted us to see for a specific topic) It makes it hard on the students who are already having to cram very in-depth topics into 7 weeks be prepared for tests. It would also be amazing to have a nursing lab that had consistently working mannequins and more up-to-date equipment.	11/13/2014 8:15 PM
89	Class Scheduling Student Services Overall experience would improve more if there are more activities to get involved in that do not conflict with class schedule. Besides that I have been pleasantly surprised by my time at tri-county this semester.	11/13/2014 5:28 PM

94	Attendance Policy Class Scheduling Facilities I love the Anderson Campus. Here I felt very comfortable and safe. But due to the fact that Anderson does not have all the classes I now have to go to the Pendleton Campus and I am not to happy about that. I want to stay at the Anderson Campus because it is close to home and I feel like family. So if I were to change anything it would be to add more classes to the Anderson Campus. Also another comment would be like me, people who are getting the financial aid and can only miss a certain amount of classes should be able to use doctor excuses because that is not our choice and may have to go to the doctor. An example is that I have had two surgery's this semester that I was not planning on having. So because I can not miss but so many days I am at school the next day in pain when I should be at home resting!	11/13/2014 9:27 AM
95	Class Scheduling Need to offer more art classes!	11/13/2014 6:49 AM

100	Equipment & Communication Facilities I feel TCTC needs to scrap its website. It is NOT user friendly. Things are hard to find and complicated. Parking passes should not be so difficult to get, and you should not have to wait in line for 45 minutes to receive one. The whole student services area is very confusing. The buildings are so broken up and you have to go down to many hallways, or even into different buildings just to go to the business office, bookstore, parking pass, financial aid, etc. everything should be in one open location. My whole administration process for registering and just getting everything done to take classes there was very difficult, as compared to my experiences I had at Greenville Tech.	11/12/2014 7:01 PM
101	Equipment & Communication Faculty & Staff I'd really appreciate it if the teachers were held more accountable for updating their calendars and such on Blackboard. My lab instructor, Mr. Fernandez(?) has told us on multiple occasions that he would upload some sort of study material before a test, and his follow-through ratio on that would have to be somewhere around 20%.	11/12/2014 6:38 PM
102	Equipment & Communication Loose the classes where you rely completely on another website to teach the course. You could save your self the money if you don't have to pay an instructor for these classes. 111	Advisor Equipment & Communication Faculty & Staff I have been pleased with almost all of my professors. For the most part my professors have been helpful, knowledgeable & personable. I have had a couple who were not but overall I am very pleased with the quality of professors I have encountered at TCTC. I have been less pleased with the confusion of selecting a course of action in my desired field. The presentation of information & its different locations has been confusing many times. The new management of the program has been making changes & I have high hopes that this will eliminate much of the confusion. I also have to give high praise to my nursing adviser, Susan Curtis for going out of her way to encourage me, to find out deadlines & to clear the confusion of the process.	11/11/2014 9:30 PM

114	Class Scheduling Faculty & Staff Overall, TCTC has provided me with a flexible and good-quality education. However, I do not enjoy the fact that chm 110 is coordinated. I believe I would be far more successful in the class if my instructor could create tests based on what he taught us, or even know what was going to be on the exam. It's also not very accommodating to regularly employed students to have to have exams outside of the regular time that was chosen based on my schedule, especially when it keeps me there late into the evening.	11/11/2014 7:28 PM

2014-15 Fall Student Survey

127	<p>Class Scheduling Facilities Tri-County is a great school. One thing that I wish would change is the hours of operation in the library. I am a nursing student and have three roommates that attend college as well. The nursing program requires a lot of studying time outside of the classroom. I attend the Pendleton campus and I find it very unfortunate that the Tri-County library is only open Monday to Thursday from 7:45 AM to 8 PM; Friday 7:45 AM to 2PM; and Saturday 9AM to 1PM. With three roommates, it is very difficult for me and many other college students to study at home because there are so many distractions. With my clinical schedule and class schedule, there are many days that I am not able to open my books up to begin studying until around 6pm. The Tri-County library is only open until 8pm Monday-Thursday, Fridays it closes at 2pm, Saturdays it closes at 1pm and on Sundays it isn't even open. Many of my exams are on Mondays so this leaves me without even having the option to study at the Tri-County library on the day before many of my exams. I devote much of my time on weekends to studying and it would be SO helpful if the library was able to stay open during this time. I find myself commuting to the Clemson University library very often because of this (the Clemson library is open 24 hrs/day Sunday-Thursday and until 8pm on Fridays and Saturdays). Since I am not a Clemson student, I must pay to park there by the hour (when I am actually able to find a parking space since parking is very limited to non-Clemson students). I know that I speak on behalf of many Tri-County students when I say that my grades and my overall performance in school would improve tremendously if we were able to access the Tri-County library more often.</p>	11/11/2014 2:53 PM

132	<p>Class Scheduling Equipment & Communication I am very upset at how the RN program is changing! I wasted credit hours covered by my pell grant on classes that I now do not need. I have also ran out of funding. The nursing program is also changing policies every time I turn around. I have two more semesters at Tri- county tech and am disappointed in the changes I have seen. I do not like relying on computers to get my homework assignments, learning tools and class chapter outlines? Many of us like getting assignments face to face as well as hand in our home work the old fashioned way. I am paying tuition out of pocket to help pay an instructor, not so I can take hybrid classes; if I wanted a hybrid class that is what I would sign up for. I also feel that when a program changes grading policies or pre-requisites then those changes should not affect the students that were already through with those classes and in the actual program. I don't care about whether the Nursing program is able to compete with other colleges, what I care about is the education I am paying for and passing boards. The changes are interfering with being able to study because there is so much more added stress due to policy changes. I love the LPN class at Tri-county; however, I wish I had applied to a different school for the RN program. I hate to sound so negative but by the time you reach the RN program you are out of money or over the hours and facing a very disorganized program. I love the instructors they all work so hard! I just wish the " policy makers" would get it together since it is our education that is being experimented with.</p>	11/11/2014 10:40 AM

I believe that it could be beneficial for students like me to be able to receive work experience credit for certain courses on an individual basis. Another frustration is how long it is between registering for classes before we can have an idea about what books will be required and how much they cost. I like to plan ahead and the delay makes it difficult to do so.</p>	11/11/2014 9:12 AM

144	Equipment & Communication Faculty & Staff The transition from machine tool technology to CNC programming and operations associate degrees has been a big headache. Fumbling classes around and confusion of which classes are needed and when they are offered. My classmates and I were right in the middle of getting our machine tool degrees and they sprung the cnc degree out of nowhere. tctc jumped the gun on the cnc degree. I have heard that tctc had no say in when the program was started. The machine tool guys should have been able to complete their degrees before starting cnc. We have had issues with instructors, especially when Mr. Walker retired right before the start of the semester. It was a mad rush to get new instructors and some of them were ill prepared and one seemed like he knew less than we did on the subject. I realize we are the first college in the state to offer the CNC degree and all the bugs should work themselves out in time. We need more good instructors. With that said, Mr. Logan is an exceptional instructor and adviser. He goes above and beyond what is needed. I hope for all the upcoming students all the bugs get worked out in this program and everything goes smoothly for them.	11/10/2014 10:21 PM

154	General Comments I love TCTC.	11/10/2014 7:04 PM
155	Equipment & Communication I really don't like taking classes online and Blackboard and My Labs Plus has been a nightmare for me as I need extended time for my ADHD. Taking test in a computer lab full of people typing away on computers is rather distracting as well	11/10/2014 7:00 PM
156	Facilities After the smoking area was closed i really haven't made new friends or socialized with new people. i just normally go home to go and relax.	11/10/2014 5:16 PM

167	Advisor Class Scheduling Equipment & Communication Advisors should be available for evening students. Very hard to meet advisor if they are in classes when evening students are at work, and gone when they get to school. Also, more classes should be available during evening hours to enable evening students to finish their degree. I have had many issues with the computers programs that go along with the class that I am unwilling to chance on line classes. The one online class that I did take; I had issues with the program, and drove to school to do the work. I even had problems on the schools computers. To much of a head ache	11/10/2014 3:05 PM
168	Faculty & Staff My only complaint is the general attitude of adjunct instructors. I have always had excellent campus instructors, however adjunct ones that I have had really have bad attitudes and are very unwilling to work with the students. My grades reflect this too. I just wish adjunct instructors would not take their frustrations out on the students. It has made my first year of college very very difficult and I have considered giving up because of the way I am treated as a student.	11/10/2014 2:54 PM

174	Advisor Equipment & Communication Advising is awful especially for Bridge and University Transfer students. The advisors do not take their time, have repeatedly registered me for classes that I do not need and that do not transfer. As a partner with Clemson for the Bridge Program I thought TriCounty and these advisors would be a little more diligent in the way they affect their advisees. Something needs to be changed before the next class of Bridge Students come through because I don't want them experiencing the same stress I did caused by the lack of attention from advisors.	11/10/2014 1:56 PM
175	Faculty & Staff I have had a lot of issues with both of my Bio 101 instructors. They fail to explain everything effectively and cause a lot of confusion.	11/10/2014 1:49 PM
176	Equipment & Communication Faculty & Staff I don't like how all the chem 110 classes have the same test. My teacher doesn't get to see the test until after we take it so she doesn't know what to teach. Also my bio teacher has wasted 4 hours talking about time management instead of teaching us biology.	11/10/2014 1:25 PM

182	Facilities The same nose boogies on the privacy screen between the urinals in the men's bathroom have been there for going on 2 years now.	11/10/2014 11:35 AM
183	General Comments All around a very solid experience for a student transferring to Clemson.	11/10/2014 11:25 AM
184	Facilities The stairs are torturous in the mornings	11/10/2014 11:22 AM
185	Faculty & Staff It would be nice if the chemistry teachers could make their own exams so they can effectively teach the students what they need to learn. Just about every school I am aware of lets their chemistry teachers make their exams but at Tri County so I found that odd.	11/10/2014 11:12 AM
186	Class Scheduling Faculty & Staff The only thing I really have a problem with is my lab instructor makes us stay the whole 3 hours instead of letting us go when we are finished with our work. Even if we are sitting there for 2 hours she will not let us leave.	11/10/2014 7:56 AM

2014-15 Fall Student Survey

187	Advisor Class Scheduling David Little scheduled 3 meetings with me all at different times and missed each one. There was no reason given nor an apology for my wasted time. I am a 2nd semester sophomore and having to take a freshman seminar because he did not do his job properly, when he did his job. I would request a new advisor, but do not know how. He has made my time at Tri-County and registering for classes very hard and stressful. I have thought many times about just transferring to my 4 year university early to have a better experience, but I am saving money at TCTC.	11/10/2014 12:28 AM
188	Faculty & Staff My instructors and my advisor are some of the best people in the world. Mrs. Read and Mrs. Vickery encouraged me to continue my education. I would have stopped at a certificate if they didn't push me to get my associates. I am so grateful.	11/8/2014 9:14 PM
189	Equipment & Communication Facilities The website is not very easy to navigate and the administration aspect of the college isn't the greatest.	11/8/2014 4:58 PM
190	Facilities Faculty & Staff Now if only it wasn't so hard to deal with business/financial aid/student records	11/8/2014 12:54 PM
191	Equipment & Communication General Comments This survey is too long I hope some body uses it to improve things.	11/8/2014 12:08 AM
192	Faculty & Staff Beverly Thompson is such a nice lady, but she is not the best Biology teacher. I can teach myself more by reading the manual.	11/7/2014 10:44 PM
193	Equipment & Communication Faculty & Staff The Spanish program should be restructured. I am 35 yr old and have never taken Spanish and enrolled into the Spanish 101 class and it was way over my head. There needs to be a beginners Spanish class to teach you the basics. I had a senior honor high school student that is in Spanish 103 to tutor me in Spanish and she said what we were learning in 101 she is just now learning in 103. Her classes built on themselves. The Spanish 101 class is to fast for older adults that have never taken Spanish before. I challenge someone to pull statistics and see the age range that is dropping the class. The younger generation can do it but the older can not. It would also help to have an English speaking Spanish teacher. I could not understand the Spanish teacher. There was a language barrier and I felt like I was at a disadvantage.	11/7/2014 10:45 AM
194	General Comments I am very pleased with my experience	11/7/2014 9:55 AM
195	Advisor This is my very first semester being in college and TCTC has helped me tremendously with questions and advice in guiding me towards my future academic goals,	11/7/2014 7:10 AM
196	Class Scheduling Facilities Labs offered twice a week instead of once a week for longer periods of time.	11/7/2014 3:09 AM
197	Advisor Equipment & Communication I like Tri-County, but here are my complaints in order of what I perceive as the most problem to the least severe. 1. Your ETC portal is garbage. Scrap it. It is not salvageable. I can not tell you the times I have been frustrated to the point of screaming because of the illogical and over-complicated layout of this site. You tried to create your site in a step by step how to manner and it does not work, because you often have to be on more than one of these "steps" at the same time. Also, get rid of the time out function, or at least make it much, much longer before the system automatically logs you out. The imbecilic nature of the ETC portal forces you to input information you can only see from multiple different pages. While going from screen to screen to input info the system frequently logs you out for inactivity. I almost threw my computer out my window while trying to figure out which classes I needed. Also, the tctc.edu site has broken links that just send you to the ETC log in screen. What's up with that? 2. Ms. Suber in advisement is terrible at her job. I came to TCTC in 2005 for Business Mgmt. and, again in 2014 for Industrial Electronics. Both times she advised me for signing up for classes, both times I had to go home do my own research and correct my schedule. Any questions I asked her were met with a look that combines ignorance and fear. She would then look off into space, say "I don't know", and call someone to get the answer. These people never answer and then she just kind of sits there. Both times I met with her I wanted to quit TCTC and go somewhere else where I could be properly helped. Not a good person to have in charge of the future of your students.	11/7/2014 1:02 AM
198	Equipment & Communication Faculty & Staff RN program is very confusing. Teacher's are always changing. Can never get the right answers for any question. I feel like I'm on my own.	11/7/2014 12:04 AM

201	Advisor Faculty & Staff I have been going to tri county for several semesters, and this is the worst semester that I have attended. The other students are very disrespectful and talk during the class. The Lab instructor that I have this semester for BIO 211 is the worst instructor that I have ever came across at my Tri County experience. On a positive note, I was finally transferred to a new advisor this semester, and she has been so helpful. I was given so much information with this one meeting than any of the other meetings I had with my previous advisor.	11/6/2014 4:32 PM

2014-15 Fall Student Survey

202	General Comments My only complaint in this survey is about parking. I know TCTC is land locked and on a hill but even when I get here at 8:20 the parking lots are full. I carpool..so I really miss the carpool lot! I also have ran into problems in the computer labs(only on rare occasions) where the lab assistances are distracted with their own computers and doing things that they do not see when I need something. I also have asked questions before about how to download or find something the computer and they have not been able to help me. I just think the computer lab assistances should be knowledgeable about computers and be able to help the students with moderate computer task.	11/6/2014 1:33 PM
203	General Comments Student Services To become instate and receive instate tuition is so very difficult and frustrating for an out-of-state student who has been in the state almost two years.	11/6/2014 12:04 PM
204	Faculty & Staff tctc do have so instuctors that can make it comfusing but there are some that will make up for the one thats making it hard for you.	11/6/2014 11:34 AM
205	Faculty & Staff Mrs. English needs to be removed from her position. He course and how she would like for you to do documents totally conflicts with the ENTIRE AOT course. She doesn't reply when needed, like other teachers and isn't very approachable. I don't like to bash; however, she went above and beyond to which I would call " unacceptable".	11/6/2014 11:32 AM
206	General Comments I am only taking 3 undergraduate courses needed as prerequisites to hopefully enter a graduate program at USC in the fall of 2015, for which I have recently applied. I am finishing up my last course currently, while teaching full-time in Anderson District V.	11/6/2014 10:17 AM
207	Advisor Class Scheduling Faculty & Staff Student Services Being a transfer student from a four year college, I was not pleased with the transition and process of things. I had not help or knowledge as to what I need to do or how to do things. I missed deadlines for financial aid for me to pay for books because my loan got denied due to not being properly instructed for transfer students on procedures by your staff. I literally had to learn and do for myself because of the lack of help that I did not receive. I do think that Tri county needs to have better trained staff on helping transfer students transition into a technical college.	11/6/2014 10:03 AM
208	General Comments Overall I'm am extremely satisfied with Tri-County Tech. I moved here from another college and I am much happier.	11/6/2014 9:20 AM
209	General Comments Overall a good experience throughout my curriculum.	11/6/2014 2:08 AM
210	Faculty & Staff I believe with more oversight, observation, and more in-depth reviews of instructors Tri-County would be one of the best educational establishments in the state. I can see that the potential for an amazing class are clearly available in every case, but it takes a good instructor to make it so.	11/6/2014 1:36 AM
211	Advisor Class Scheduling Equipment & Communication Faculty & Staff This is my first time back in school in five years, and I wasn't very familiar with any of the procedures for adding or dropping classes or what resources were available to me. I feel like I could have been informed better on what things to pay attention to when I had my first talk with an advisor. I had to register for classes on my own without any idea on what I was doing. I didn't even know I had an etc email until my second semester. And I absolutely do not like the etc website. It is overwhelming and its hard to tell what's important when it is all the same font. Bits of information that I needed seemed to be scattered all over the tabs.	11/6/2014 12:30 AM
212	Facilities They need to re-open the mechanic street parking lot. Since it's been closed traffic has been very congested and I've noticed more students being late to classes. I have also seen a few wrecks due to traffic congestion.	11/5/2014 11:23 PM
213	General Comments Standards are a lot higher then other colleges	11/5/2014 11:00 PM

216	No Comment None	11/5/2014 6:53 PM
217	Class Scheduling Equipment & Communication I have a full time job and I have to take most all of my courses on-line. My only problems are the availability of evening classes when it comes to higher level math classes and such, and a lot of my teachers on my on-line classes set deadlines that are not helpful to someone who works full time. Ex. An assignment that is due at 6 pm on a Wednesday means that I lose an entire day and have to complete it on the Tuesday prior.	11/5/2014 5:54 PM
218	General Comments This school has made it possible for a person with low income like me to gain a quality education, and for that I am grateful!	11/5/2014 5:45 PM

219	Class Scheduling The nursing program needs to be looked at and streamlined. Too much confusion about classes what to take when.	11/5/2014 5:15 PM

222	Advisor Equipment & Communication The only thing I feel like the College could work on is some of the advisors. 250	Faculty & Staff The teachers are respectful and help when you have a question. Events for me are usually an hour after I leave the campus and it takes too much gas to come more than once a day.	11/5/2014 7:59 AM

254	General Comments Tri county is challenging	11/4/2014 11:46 PM
255	Advisor I was assigned to an academic adviser that had a totally different schedule than I did. I think before a student is assigned to an academic adviser, they should make sure that they are on the same campus a lot more. My adviser was at the Easley campus while I was at Pendleton, and vice versa. I also think that according to which major the student is in, their adviser should know more about it. The advisers and students should have more in common than just being at the same campus. It works out better if the adviser can explain more about which classes would benefit than to just be randomly given an adviser just to have one. In my opinion, i believe it would benefit the students, and allow a more pleasant experience.	11/4/2014 11:36 PM
256	General Comments Good school over all	11/4/2014 10:34 PM
257	General Comments I have enjoyed my time at Tri County for the majority of my time spent there.	11/4/2014 10:27 PM
258	General Comments It is easy to make friends since the class sizes are small. Many of my lab partners are already close friends and I know at lease a few new people in every one of my classes.	11/4/2014 9:50 PM
259	General Comments Proof read before putting the survey out. Food question is on here twice.	11/4/2014 9:29 PM

266	General Comments Tri County is a really good college. The teachers are all about your success and helping you in anyway they possibility can.	11/4/2014 7:36 PM
267	Class Scheduling Equipment & Communication Faculty & Staff I feel that there are a few courses that should be offered online rather than outsourcing the task of teaching specific lecture courses to an individual that is employed elsewhere. I have found that I sit in these classes and do nothing. The work required could easily be done online from home. I feel it is a waste of my gas to drive the 32 miles twice a week for one class that nearly puts me to sleep, as well as it is taking time away from my children.	11/4/2014 7:13 PM
268	No Comment n/a	11/4/2014 6:25 PM
269	Faculty & Staff Not all of the instructors are good but they tend to keep their job for a long time at TriCounty Technical College because either there are not enough people to voice the matter or our surveys are not helping. The most costly and risky classes for a student to gamble on are science insructors because you never know when you will be handed a bad one and there is not a place to look at their profile and read reviews or rate them.	11/4/2014 4:14 PM
270	Advisor Equipment & Communication Overall TCTC is a good school. The faculty is great, and the class sizes are just right. The eTC web page is extremely complicated to navigate and quite frankly, very frustrating. The advising is the worst. The advisers are supposed to help guide students in the right direction but I have found that when someone is trying to advise 100+ students we just become numbers without value. Each session with my adviser has left me more confused than when I entered as to what I need to do to obtain my career goal.	11/4/2014 3:51 PM

2014-15 Fall Student Survey

271	Class Scheduling Someone should considering increasing the time between classes on Tues/Thurs. I have four classes back to back next semester with only five mins in between them and I have to walk across campus for at least one of them.	11/4/2014 3:17 PM
272	General Comments Tri-County is overall a great school and has a lot to offer for their students.	11/4/2014 3:04 PM
273	Advisor The overall advising sucks... it's pretty bad when I've been at the school for almost two years, and the LAST advising apt scheduled was the most helpful one... We really need more advisors there that actually care.. Or at least ones that are good actors who can pretend to care. All I'm asking for is a little bit of their time. I hate feeling rushed, and feeling like I am bothering them.	11/4/2014 2:57 PM
274	Faculty & Staff General Comments I do not like when my instructors incorporate Christianity, Jesus or God into our assignments or discussions when it is not welcomed or necessary. There needs to be more respect for those of us with different beliefs systems. We should not be subject to an instructor's belief systems or religious opinions. This is not just one class this has happened in, this is many. I know this is the south, but there needs to be more tolerance. This would not stand in any other college in the US. If I wanted a religious experience I would have attended a Christian school. Other religions are the minority here yes, but church and school need to be separated, especially when we are adults.	11/4/2014 2:13 PM
275	Facilities My only safety concern is the narrow steps in the back of the school leading to the parking lot... The steps are so small and steep that it is easy to miss one and fall.	11/4/2014 1:04 PM
276	Class Scheduling Faculty & Staff NUR 139 and NUR 104 was chaotic and unorganized. We had two instructors for both classes (Fuller and Harris) who disagreed and never taught together, making studying very difficult (who would write the tests?). All our 139 tests (except the final) were unorganized - misnumbered, containing many typos and yet having strict time limits. Although Mrs. Fuller sincerely wanted to help us learn, Ms. Harris was condescending and spoke negatively about Mrs. Fuller's answers and teaching style during lectures. Ms. Harris' unprofessional, public insulting criticism has led several of our nursing students to drop out of Tri County's program. Ms. Harris didn't answer several of my emails and refused to discuss our tests with us individually. She hasn't followed the schedule and can't tell us what chapters to read, then gives us pop quizzes we have no way to know how to prepare for. For example, on Oct 28th - our schedule told us to read about acid/base imbalance (ch.14), yet she quizzed us on what we should have read for Oct. 29th according to that schedule she made us(ch.13). On the 27th I asked her what chapter to read and she said she didn't know. Many things like the above have been reported by myself and others in surveys as well as in person to the head of the department. However, we have not noticed any changes in Ms. Harris' class (NUR104, 8 am).	11/4/2014 12:35 PM

279	Class Scheduling Electives for degree programs should not just be something from the field that a student is studying. I would have liked to take that new fitness course as an elective but it would not have counted towards my Associates.	11/4/2014 11:42 AM
280	General Comments Although at sometimes the facilities at Tri-County can feel a bit lacking, overall, I have been generally pleased with my time attending this institution.	11/4/2014 11:40 AM
281	General Comments the school has a great atmosphere	11/4/2014 11:32 AM
282	Equipment & Communication There should be more options for the amount of money used on books every semester. I have spent over 700 dollars on books for a semester. I know of many others who have as well. With the book store prices who ever wrote this survey should know that students spend way over 500 dollars.	11/4/2014 11:15 AM
283	General Comments I wish there was more of a financial aid presence. There is the foundation scholarship but it is extremely hard to find good scholarships	11/4/2014 11:11 AM
284	Faculty & Staff A lot of the professors don't teach they expect you to know everything that they are teaching for the first time	11/4/2014 11:07 AM
285	Equipment & Communication General Comments On some questions, my costs or commute times are actually larger than any option provided. A "\$500 +" (or other relevant number) should be added. Also, additional power outlets in the Pickens classrooms would allow students to utilize laptops and mobile devices.	11/4/2014 10:32 AM
286	Advisor The advisors need to be better familiar with classes that transfer and do not transfer to clemson. They are telling us the complete wrong classes and we are the ones that have to pay for it later.	11/4/2014 10:29 AM

2014-15 Fall Student Survey

287	Faculty & Staff General Comments No one knows what is going on in their school, people such as financial aid, book store, and business office. How? I was away just before school starts and was coming back the day before school started, while I was away I was concerned about getting my books. I call each of the following places above (financial aid, business office, and book store) asking about the possibility of getting my books either added to my payment plan or if their could be a separate payment plane fore the books. When I say I was transferred to each of the three places twice im not joking, no one knew about such a thing. When I got back, financial had me go to the book store, they had me go to business office, they had me go back to the book store because I needed to get on payment plane for my books....the exact thing I had called about that none knew about is what i needed to do the day before school. I literally almost dropped tri-county and would tel anyone i came in contact with to NEVER go to this school. No one knew what was going on or where I should go, really it was the most stressful thing I have ever need to deal. The people "running" this school have no idea how to. To this day I cant wait to get out of this school because these people are the most unorganized, rudest, most confused people that are supposed to help me. Not the teachers, I love all of my teachers, everyone else, not so much.	11/4/2014 10:08 AM
288	Advisor Facilities but when in need to get ahold of advisors I hate it, it shpuldnt matter how busy they are, they should contact the student back no matter what! Also when going to the library to study in Pendleton campus, the students are so rude, they have no respect for the others that are sitting there trying to study.	11/4/2014 9:33 AM
289	Attendance Policy Class Scheduling Faculty & Staff I don't think this school is mindful of working adults/ adults with families like the previous tech college I attended (trident). There appear to be few online courses offered, and the attendance policy is rather stringent (I have attended a few other colleges.) I have also been extremely disappointed with the quality of professors so far, and that is something I do not say lightly.	11/4/2014 9:33 AM
290	Advisor Advisors need to acutually look at students courses already applied to major before recommending a course. I transfered in a few courses which was applied as all electives for my major but my advisor didn't even bother to look at my degree track recommending me to take electives I didn't even need. I felt used to be honest. The more courses I take the more money the school makes is what I chalked it up to be. I'm seriously considering other schools.	11/4/2014 8:36 AM
291	General Comments Go Hawks!	11/4/2014 8:32 AM
292	Student Services I have really enjoyed my time at Tri County the only thing that has hurt was the financial aid most of the time I don't even get enough to cover my books and I struggle as it is.	11/4/2014 8:31 AM

297	Class Scheduling Faculty & Staff The only issue I have run into at this present time is assuring that I can take a different biology than what is required because I refuse to take it with the only professor that is teaching it due to her style or teaching and making you feel like you are not important enough as a student. My biggest concern is why should I feel like I have to be sent up for a failure when I am at the end of the goal, but she needs to be talked to or moved to another subject Mrs. Sharon Humdummer what ever the last last is..	11/4/2014 2:43 AM

300	General Comments I think that Tri-County has a great thing going. There are constant job offerings and opportunities that people wouldn't have access to outside of the college. It's a great technical college and I've grateful to be able to attend!	11/4/2014 1:10 AM
301	General Comments This school is a great start to the college life. I love it!	11/4/2014 12:16 AM
302	Faculty & Staff A lot of the staff is rude and acts like they hate their job.	11/4/2014 12:00 AM
303	General Comments When I first started attending TCTC, I was a bit nervous because I was "fresh out of high school". Unbeknownst to me & my classmates, that Fall 2010 semester was the most difficult. One of our very own classmates, a TCTC student, passed away suddenly while running at the Westside track. I'll never forget the support and help the teachers showed to me & my high school classmates who were also attending TCTC.	11/3/2014 11:37 PM
304	Advisor admissions and all the hoops I had to jump through to get enrolled here was a headache but I have really enjoyed attending TCTC.	11/3/2014 11:37 PM

2014-15 Fall Student Survey

305	Faculty & Staff I have instructors that told us they don't have time to lecture and we need to do a lot of studying on our own. Aren't they getting paid to be an instructor? Otherwise these classes should be online and save our gas and time.	11/3/2014 11:25 PM
306	Student Services Financial was particularly difficult for me this semester. Most of my questions were unanswered and my aid took so long to get here. The books I needed were so expensive in the bookstore at Tri County that my Financial Aid would not even cover them, so I made other plans to get them for cheaper elsewhere, but did not realize how long aid would take to come through and ended up having no books for my first two weeks of school. Luckily I had very understanding teachers who even lent me some books to use.	11/3/2014 10:21 PM
307	General Comments I have and will recommend TCTC to others.	11/3/2014 10:05 PM
308	General Comments This survey was very beneficial! Go Beavers!	11/3/2014 9:51 PM
309	Class Scheduling Student Services If a person scores 100% (or very close to it) on an area of the Compass test, then they should be exempted from the first level of that area - I am very frustrated by the fact that my sister and I both scored perfectly on the Reading and Writing and both of us were placed in English 101. Obviously this is material we understand and do not need to waste a semester and money on.	11/3/2014 9:46 PM
310	Facilities Student Services Please expand the tutoring center. Although I am able to get tutors to help me, my schedule sometimes does not fit with the tutor. Therefore I can not see a tutor at a convenient time.	11/3/2014 9:26 PM
311	Faculty & Staff I have been very disappointed in the quality of teaching at Tri-County Tech. We were informed the first week of the semester that the teachers in the nursing program weren't required to teach us anything, that if they told us to go home and read everything and learn on our own that it would be perfectly acceptable and we would be required to teach ourselves. This to me, seems very unacceptable considering that amount of out of state tuition I pay to be taught by this school. It's difficult to feel confident in yourself when it's obvious that some of the teaching staff aren't happy with their own jobs.	11/3/2014 9:22 PM
312	Advisor Invest more in advisers that actually know what they're talking about. My advisor has been nothing but problematic for me. I found out I've taken classes that aren't even transferable to Clemson, whilst I am in the Bridge program, so I've wasted time and money. He also inaccurately quoted me for the amount of hours I needed to be able to bridge & to keep my scholarship, among many other things. Advisers should advise in areas of specialty.	11/3/2014 8:56 PM
313	Faculty & Staff I have definitely made the right decision about returning to school and attending Tri County. The transitions I have made in the last year have come easy due to the assistance and help from the staff and employees at Tri County. It's been a wonderful 11 months. Thank you Tri County!	11/3/2014 8:22 PM
314	No Comment NA	11/3/2014 8:21 PM
315	Facilities General Comments Sometimes I get frustrated at how disrespectful the students are to the teachers. I do appreciate the tobacco-free campus, though. It's nice to not see guys hacking up tobacco and spitting it on the ground.	11/3/2014 7:51 PM
316	Equipment & Communication Faculty & Staff The nursing program is the most disorganized thing I have ever been involved with. The instructors do not seem to communicate, at all. The curriculum is changing so frequently, the instructors do not even know what to call each class, and there is a generalized sense of panic among instructors. There has been a decline in the NCLEX-RN pass rate, and this is quite possibly why. There are so many distractions that students cannot possibly focus in class. There are six to seven websites instructors try to use and that is too many. It needs to be more organized and geared more toward instructors actually teaching rather than using multiple, multiple websites as a crutch to compensate for the chaos of the program.	11/3/2014 7:32 PM
317	Faculty & Staff Math 110. A Ward. Pendleton Camp. NOT SO GREAT class not succeeding.	11/3/2014 6:45 PM
318	Facilities The steps on cardiac hill are awful!!! They are way too steep!!	11/3/2014 6:45 PM
319	General Comments In general, my satisfaction with Tri-County is average. I have had my positives and negatives within the lectures and labs, but overall my experience has taught me valuable life lessons and at this point in my life that is all that matters.	11/3/2014 6:21 PM
320	General Comments I love this school and the capabilities it has given me. I have become a better student and I am more determined to follow my education desires.	11/3/2014 6:13 PM
321	Faculty & Staff General Comments Overall I am very satisfied with my experience at Tri-County. I have one professor who has definitely been a struggle, but I am pushing past that. I look forward to the rest of my experience here at Tri-County.	11/3/2014 6:12 PM

2014-15 Fall Student Survey

322	Class Scheduling Need to do a better job of scheduling night classes so that classes in the same program are not only offered on the same nights and times so that it makes it impossible to take more than one at campus class a semester.	11/3/2014 6:09 PM
323	Advisor TCTC has been a good experience; besides advisors recommending the wrong classes.	11/3/2014 5:49 PM
324	No Comment N/A	11/3/2014 5:43 PM
325	Advisor Faculty & Staff Student Services When I first came to TCTC I was extremely unprepared for college, seeing as how most instructors do not care about the actual education, my advisers pretty much lied to me until I sought help elsewhere concerning my major, and to be honest, I have no idea what career I'm going to have once I leave TCTC. No one has given me a list or even an email. At this point I feel like if I went to a more expensive school, or even out of state, the high tuition would be worth it. Also, the selections within the library are lacking at best unless you want to write an argumentative research paper, but anything about art culture seems to be non-existent. Most of the teachers seem like they don't want to teach or care to help. To my knowledge, the only teachers that have helped me along my college learning were, Sean Millerick (History), Pamela Patterson (English), and Katherine Z. Williams (Organizational Psychology). These three teachers out of my total of 15 teachers enjoyed teaching and helped me. On another note, when I first came to TCTC to register, I originally wanted an Associates in Arts major, but they placed me, and enrolled me, in Graphic Communications claiming they had no Assoc. in Arts. Then after switching from that to Business, and talking to Miss Cindy Trimmier-Lee, who was not an adviser to me, but knew my mother, explained to me that there was, in fact, an Associates in Arts major and was, in fact, covered by financial aid. If I had not talked to her, I would not have known and would have kept blindly switching majors. This semester, I experienced difficulty purchasing any textbooks. However, in the previous two semesters, I had no difficulty purchasing textbooks. When I went to the financial aid office to receive some advising about this, I basically got an answer along the lines of, "I don't know, you may have to get a student loan but we prefer you not do that." Unfortunately I had to apply for a loan, because no one knew why I couldn't afford my books anymore. Granted, I am unemployed, though I have applied to countless retail and grocery stores, and living with my parents. We are already living paycheck to paycheck and couldn't afford \$250 for books, so I now have a loan to pay off.	11/3/2014 5:34 PM
326	TCTC is great, however, I feel that the nursing program could be more organized. The students are always confused about what classes are available to them, and which classes they should be taking. The instructors are not always 100% prepared for teaching the content that they have been assigned to teach.	11/3/2014 5:18 PM
327	Facilities turn the heat on in the girls' bathroom	11/3/2014 5:16 PM
328	Equipment & Communication never really knew about starfish until I needed a writing center appointment and when I called to make an appointment they told me I had to do it through starfish now, which was a little confusing to work at first but now I seem to understand it a little better.	11/3/2014 5:10 PM

332	Advisor I have had trouble with my advisor multiple times. She is never available. I call and leave her messages and she never calls me back. I leave her emails all the time trying to get in touch with her and she never emails me back. If I ever hear anything from her she has other people call me back or email me back. I have tried to switch advisors so that I can schedule my classes and the new advisor wasn't much help either. Some of the people I have tried to call about some problems I've had make excuses for the advisors. If they don't have time to advise then they should not be advisors. I'm hoping I can find an advisor that will be willing to help me rather than me trying to chase them for help.	11/3/2014 4:43 PM

334	Faculty & Staff the only subject i do not particularly enjoy is Math 032. It isn't the instructor's fault, i have simply never been very fond of math. I do not to much enjoy college 103 either, but this is mostly because i am particularly shy and do not enjoy working in groups with others. I prefer to work on my own if I can help it. I am not fond of being put on the spot either. Our instructor is part of the problem! Not that she isn't a fair instructor, or an overbearing one, it's more that she might do better to teach a younger age group. I don't mean anything bad by saying so, really... I am aware of the fact that she is a new instructor so she is probably feeling the same thing that we are. I just feel like she might be better suited to teach a younger age group.	11/3/2014 4:33 PM
335	Faculty & Staff Juvenile Delinquency class, Professor Bradley Bowen is fantastic.	11/3/2014 4:27 PM

337	Equipment & Communication Faculty & Staff I wish there was a way teachers or the Tri-county office could be able to alert the students on their progress in classes. Say they are doing poorly, then they would get an email saying that and the student would know that they have to work even harder to pick that grade up. Its especially hard if the teachers don't post grades on blackboard to know how I am doing in that class.	11/3/2014 4:10 PM
338	General Comments I enjoy attending Tri-County and I am very lucky to be able to follow my dreams. Thank you for the opportunity.	11/3/2014 3:43 PM
339	Facilities I think the Chemistry classes/department kind of need to be looked into. I took CHM 110 at a different institution where it was a much more pleasant experience.	11/3/2014 3:26 PM

341	Class Scheduling I love TCTC! Just wish there were more Business classes offered at Easley! Its not easy to travel to Pen campus late at night for classes!	11/3/2014 3:21 PM
342	Faculty & Staff The teachers are great and the friendship I have made are great. I just want to thank TriCounty for letting me attend. My Success Coach is the best Tashaka Johnson thank for everything you are the best!! Also my teacher June Cutler I would be lost with out her.	11/3/2014 3:08 PM
343	Advisor Equipment & Communication Facilities -The older buildings need to be updated. They are cold and dirty and very difficult to be in during the winter. Ultimately, they need to be gutted and re-done. Some of the class rooms are very oddly shaped and make it difficult to see the teacher when they are teaching, as well as the white boards. -eTc needs to be updated, it is very hard to navigate. -Registering for classes became much more complicated this semester. -Healthier food choices in the Cafe	11/3/2014 2:38 PM
344	Equipment & Communication Faculty & Staff The nursing program has a lot of issues regarding NCLEX success and an overall successful nursing career that desperately need to be adressed.	11/3/2014 2:38 PM
345	Facilities Overall I'm satisfied with tctc. Wish the mechanic st. Lot would stay open though because parking is an extreme problem for me.	11/3/2014 2:33 PM
346	Student Services I think out of state tuition is ridiculously expensive. I took a class during the summer of 2014 and it cost me \$1400, where as it costs all of the other students \$93. I live five minutes past the state line. I like the education I am getting at the college, but what I'm having to pay, even now - after fafsa, is insane.	11/3/2014 2:11 PM
347	Advisor Equipment & Communication As a bridge student, there are some classes many bridge students take and those classes fill up faster than any other class. I did not get into a class I needed within the first 5 hours of open registration. I also think TCTC should make it more clear that you HAVE to see your advisor before you register. I thought it was recommended, not that you had to. When it was time for me to sign up for classes I couldn't because my advisor did not open the registration for me. I was never told I HAD to go to them.	11/3/2014 2:09 PM
348	General Comments I really love the Easley Campus its nice and clean and everyone is friendly and helpful	11/3/2014 1:50 PM
349	Facilities Oconee Campus has no security so if we are leaving at 8pm and we break down we are stuck.	11/3/2014 1:43 PM
350	Faculty & Staff lack of people to help always have to go to pendilton and good luck calling never get answers	11/3/2014 1:30 PM
351	I have been at TCTC for 4 years now, and I have had a great experience. There has been some teachers and some classes that have been horrible, and some that were a waste of my money. But overall, I have my Associates Degree in Science, I am about to graduate with my LPN, and I am about to start the transition into RN. Most of the people I have interacted with, have been very caring and supportive.	11/3/2014 1:10 PM
352	General Comments all was good	11/3/2014 1:09 PM
353	Equipment & Communication Faculty & Staff One thing I have seen time and time again is teacher availability. My AC/DC class this semester has had four different teachers. I also feel like since that has happened I haven't really learned as much as I would like to. Another thing I feel like should help more is labs. The labs are small and sometimes don't have enough equipment to do what you need.	11/3/2014 12:56 PM
354	General Comments I recommend Tri-County Technical College for people that are looking to start college because it is a good place to start before heading to a four-year university.	11/3/2014 12:33 PM
355	General Comments I have enjoyed my time at Tri-County and it has opened many doors for me and also gave me a lot of experience I will need in the future. It has been wonderful and although my time is almost up, I will cherish all the memories made at this institution.	11/3/2014 12:25 PM

358	Equipment & Communication Facilities My only complaint is the parking. The lower parking areas and the 170 plus steps are a bit much for me. I am not disabled, but have had bilateral knee surgery and it's very painful to go up and down all those steps.. There should be a shuttle bus or something for people with these parking spots. I DO NOT THINK THE BUS SHOULD HAVE BEEN STOPPED. otherwise, I am loving my college experience. Thank you Pamela Powell	11/3/2014 11:56 AM
